Trials Are Helpful.

There is no cause for discouragement, therefore, if we pass under the rod, for no temptation hath overtaken us "but such as is common to man." Our lot is not harder than our neighbor's—and it may be much easier. Trials have their place in the divine economy, and in the end, man may find that "sweet are the uses of adversity," however grievous they may be to be borne. A hot-house plant may be beautiful, but it is not rugged, and its life is brief and evanescent. The exposed ones are the hardiest, and storm, as well as sunshine, is necessary to develop endurance and strength.

Denounced and Renounced.

At the time when our flag had seemingly been insulted, a man was found in his denunciations of those who had dared to defy the United States of America. However, this man was a saloon-keeper, and did not hesitate to continually defy the law by keeping his saloon open on Sunday and by selling liquor to minors. Loyalty to our country manifests itself not so much in fighting, but in reverence for its laws.

Duty to Self and Country.

Our duty to ourselves lies back of our duty to our country. Dr. Dickinson makes the sensible statement that if a man wishes to gain an influence in any community, the first thing he must do is to show that he is able to take care of himself. How otherwise can he win men's confidence in his ability to help care for the town or the nation?

Pension Bills Passed.

Mr. Gallinger (N.H.), chairman of the Committee on Pensions, made a brief statement of the work done by the Pension Committee during the present session. It showed that the bills relating to pensions introduced in the House aggregated 7,518, while the number introduced in the Senate was 2,552. The total number passed by the Senate and House was 1,151.

Teachers Favor Manual Training.

The Chattanooga State teachers adopted these resolutions: Your Committee on Resolutions desire to submit the following report:

Believing that education, next to the Christian religion, is the greatest civilizer, affirms its purpose to continue to strive for the educational policy which shall guarantee the blessings of public education to all the people.

Since it is a fact that eight-ninths of the educable children in the South are in rural communities, there be it

Resolved, first, That this association pledge itself to use all the means at its command for the promotion of a wholesome rural school sentiment, and for the upbuilding of a good and efficient system of rural schools.

Resolved, second, That this association recommends the establishment of at least one good high school in each county or parish throughout the entire South.

Since the association realizes the great educational value of manual and industrial training, and since the need for such training is so keenly felt, throughout the South.

Resolved, third, That the curriculum of every high school should include a thorough course in manual training.

A Week of Wind and Rain.

The severe storms of the past week have caused great loss of property and crops in this county. The storms came one after another for five days. The roads are washed out in every section and many bridges have been swept away. The rain has done great damage to the young corn and tobacco and the wind has swept nearly everything else. The worst storm of all came Saturday night. Hundreds of trees were blown down and a number of barns destroyed.

Near Berea, the homes of John Ponder, John Mitchell, Al Weaver and Tipton Cooper were wrecked. May Ponder, an aged man and a child of John Ponder were instantly killed. Several other persons were seriously injured—Richmond Climax, July 2.

Didn't Convey the Correct Idea.

In last week's advertisement of the Mt. Sterling Water Light & Ice Co. a typographical error made a sentence read, "See our plumber." The Water Co. is not interested in the plumbing business in any way and it was intended that the sentence quoted should read, "See your plumber." All the plumbers in town have had a busy season as a result of the building of the water works and new taps are being made continually all over town—evidence that the people of Mt. Sterling are not slow to avail themselves of any good thing.

Virginia and Kentucky Electric Lines Sold.

The Camden Inter-State Railway Company, has sold to a Pennsylvania syndicate all their electric lines in Huntington, Central City, Ceredo and Kenova, W. Va., Catlettsburg and Ashland, Ky., and Ironton, Ohio. The deal also embraces the electric light plants in Ironton, Ashland and Huntington. The consideration was about two millions.

Half a Million in Twelve Months.

There is no truer indication of national prosperity than the volume of immigration. Figures for the fiscal year, ending at Ellis Island, show that nearly 500,000 aliens have landed at this port, the present month alone bringing more than 50,000 from the various countries of Europe.

Senator Blackburn Strongly Advocates Primary Elections.

The advocates of a primary election over the state to select Democratic nominees for the state races next fall are feeling good as a result of a favorable expression from United States Senator J. C. S. Blackburn. In a letter to State Prison Commissioner J. M. Richardson, he comes out strong for a primary election.

"United States Senate,

"Washington, June 27, 1902.

"Hon. James M. Richardson, Glasgow, Kentucky:

"My Dear Jim—Accept my congratulations upon your editorial of the 13th on primary elections. It was a strong article, well put up and unanswerable. I hope to live long enough to see it become the universal practice of our party throughout the country and to see United States senators elected by direct vote of the people. When these two things are accomplished, I will be satisfied. Sincerely your friend,

"J. C. S. Blackburn."

Kentucky's Greatest Fair.

Beginning Monday, July 14 and closing Saturday, July 19, the Richmond Ky. Lodge of Elks will attempt to break all records at their Fair. The forty acres of woodland, the magnificent campus of old Central University, in the suburbs of Richmond, will be the location. A splendid race track, amphitheatre and band stand have been constructed. Premiums for all kinds of stock, farm produce, and domestic ware. Large trotting and pacing purses and stakes, handsome premiums on saddle and harness horses, etc. It is not a street fair in any sense. Admission 25 cents to all.

D. R. Tevis, Secretary.

President Exercises.

The President footed it from Alexandria to Washington recently, a distance of ten miles or so, walking the railroad ties most of the way, with the exuberance of one of his own little chaps. Gen. Wood alone accompanied him. The President is the prince of tramps. One often sees him swinging off apparently alone, along the streets and avenues, even after midnight. He generally walks to the funny little Dutch Reformed Church that he attends.

Sensible.

The action of the United Mine Workers of Kentucky in resolving to stand by their contracts with their employers rather than go on a sympathetic strike is highly creditable to these men.

Presentation of Medal.

On Monday night, June 30, at the Odd Fellow's lodge in Paris, Mr. Jas. T. Davis was presented with a solid gold medal, for continuous service as treasurer of the lodge for fifty years. The medal is handsome, with a scroll at the top with "I. O. O. F." Beneath is a globe, showing the two countries, North and South America, with the word "Universal." On top of the globe is the figure "50," which are studded with fifty small diamonds, representing fifty years, and below the three links, representing the emblem of the order.

He is a charter member of Bourbon Lodge, organized in November, 1845.

Bourbon Lodge is in possession of the original receipt given by Mr. Davis the night of the institution of the lodge on Nov. 25, 1845, and his receipts for every night since.

The Kentucky Press Association will hold its thirty-third annual meeting at Owensboro, Ky., Tuesday and Wednesday, July 22-23. It will be a most enjoyable gathering of newspaper men. The annual outing will include a visit to Cincinnati, Toledo, Put-In-Bay, Sandusky, Detroit, Port Huron, St. Clair Flats, Sarnia, Ont., and Mt. Clemens, Mich., the celebrated health resort; leaving Owensboro at 11 o'clock Tuesday night, July 22, returning arriving at Cincinnati, Wednesday night, July 30. The entire cost of the trip will be about \$25. This will include hotel bills and all other actual expenses.

Are Anxious to Know.

In defiance of the advice of his Ministers, the Czar of Russia has decided to give private audience to over 200 representative Russians of all ranks, including university professors, publicists, editors, political prisoners and even convicts, with a view of thoroughly probing social problems and discovering the motives for the assassinations of Ministers and officials.

The Shah of Persia, who is now visiting in Europe, will not travel on a railroad faster than eight or ten miles an hour. A large staff of detectives travels with imperial majesty. Another oriental potentate in Paris on his way to see the coronation of King Edward, was the Maharajah of Jaipur, an Indian ruler, who travels with a suite comprising twenty dignitaries and one hundred and twenty-three servants.

GRAND RALLY.

Some of our churches of Mt. Sterling are in need of a grand rally. The results obtained at the Colored Christian church grand rally should be an object lesson. These people are all laborers, day toilers, bread winners, and the effort last Sunday to raise money to meet their needs was a little less than marvelous. They are without incomes, save from daily toil, and yet when the pastor said "go every effort was used, the chains clinked and as a result the very poor gave \$5.11 in pennies, the next in ability, \$75.00 in nickels, \$75.00 in dimes, \$60.50 in quarters, \$70.50 in halves, \$189.00 in dollars, \$100.00 in currency, making a total of \$530.50. If the white people, more favored should go and do as these colored people, all they need and more would be in our treasuries.

THE ADVOCATE thought our city representatives and water works people could get together on a business proposition. They have not by pulling, but by searching for mutual grounds. The city agrees to pay for water protection, \$250.00 per month until January 1st, when both parties will meet the provisions of the contract. This is right and now both parties are in position to look about for new enterprises that to gether they may induce their coming to Mt. Sterling. The water company is hurrying to do their part and have already purchased the metal for the additional height of the stand pipe and contracted for its completion. Work will go ahead, and our people are being bantered by the water company for a match in securing the most for Mt. Sterling.

Stop It

There is a great deal of complaint made of the noise made by persons both colored and white, who congregate on the corner of Mayville and Main streets and along the former street, South. These keep up a disturbance until late at night telling vulgar stories and loud talk and laughter.

When union men shop a funeral procession and make non-union drivers dismount, as last week at San Francisco, it looks like carrying the union business a little too far and making it nauseating.

The program offered by the fair is the most attractive ever offered by a street fair. All the days are big ones.

The Floral Hall will be in the Baum building on West Main st. Competent lady managers will be charge. Let every one compete for the prizes in this department.

RELIGIOUS.

The first of the union services was held at the Methodist Church on Sunday evening. Rev. Bolin preached.

The meeting on next Sunday will be at the Christian Church. Sermon by Rev. Joplin. Services will begin promptly at 7:30.

At the Baptist Church next Sunday morning the pastor will preach Text, "Am I my brother's keeper." It is especially desired that the entire membership of the church be present. The public cordially invited.

W. J. Bolin, pastor of the Baptist Church, delivered a most excellent sermon at the Union Service held at the Methodist Church Sunday evening. There was an appreciative audience to hear him though not crowded house. Many church people were conspicuously absent not because of sickness or that the evening was too hot but we are sure, for Monday the same people were hurrying about their places of business for the dollars or me out in the burning sun. If the church members do not enjoy their religion sufficiently to work for the Master, how can the world be expected to be interested? The following are the heads of Mr. Bolin's sermon:

Text—John 14: 1. Introduction
Man Defined—Body, mind, spirit
Bible Defined—Therapeutics furnishing scope for human life
God illustrated by ocean, lake, spring and dew drop.

Faith Defined—Spiritual appropriation.
Man's Troubles—Sickness, sorrow, sin.

God's Remedy—Faith. The life of trust.

Call to faith in the light of the three groups of people around the cross.

Story of the Battle of Fredericksburg.
Communion service will be held at the First Presbyterian Church Sunday, July 20th. Preparatory service Wednesday evening preceding.

A fond mother sent her little son to Sunday school, and when he returned she asked: "Were there many there?" "A good many," replied the boy, "but Jesus wasn't there." "How do you know?" "Because," the boy said, "they sang, 'Jesus is Calling To-day'."

A minister in a nearby town on a recent Sunday surprised his audience by reading the following notice from the pulpit: "The regular session of the Donkey club will be held as usual after the service. Members will line up just outside the door, make remarks and stare at the ladies who pass, as is their custom." But they didn't that Sunday—Does this apply in Mt. Sterling?

Rev. W. J. Bolin declined to entertain a call from the First Baptist church at Mexico, Mo., and has entered on his sixth year as pastor of the Mt. Sterling Baptist church. Many have been the calls extended to pastor Bolin, some of which carried with them more than double the salary he is receiving here, but believing his work here is not at an end he is willing to labor where the Master predicts. Mr. Bolin is a popular pastor, an able preacher with forceful presentations, and the announcement that he would remain here was received with gladness by his congregation.

Suicidal Intent.

Saturday morning Mr. J. W. Fassett, aged seventy-three years, a prominent farmer of Flat Creek neighborhood in Bath county, attempted suicide. He took three grains of morphine and with a six inch dirk and a farm hatchet went to an orchard near his home and as soon as the morphine had its effect he placed the point of the blade over the breast and with the hatchet drove it to the hilt. This occurred early in the morning. The colored boy coming from milking found Mr. Fassett in a dying condition. He was taken to his house and when a physician was called for he said: "I do not want a doctor. I want to die, I want a preacher."

Though in a dying condition when found Mr. Fassett had improved rapidly and is able to walk about the house and expects to be about his business soon. The escape from death is wonderful. As a cause for the rash act, Mr. Fassett says his children needed his money and to end his life was the quickest way for them to get it.

Rumor has it that Mr. Fassett was to be married soon. He had neither domestic nor financial troubles. He came here from Vermont during the construction of the E. L. & B. S. Railroad, met Miss Sarah Young, sister of Judge John D. Young, and married her. She died about five years ago. They have five children living, Roger, in Central America, Luttell, a soldier in the Philippines, Mrs. Armistead Mason, Beattyville, and two sons at home, Thomas and Lawrence.

Mr. Fassett is a good citizen and such an intent is the cause of sorrow to his many friends who hope for a speedy and complete restoration.

There seems no rest on earth for me.
No friends amidst the contented throng.
Melancholy and unhappiness,
Are unjustly meted out to me;
Shall I carry my sad burden on,
Will it never to me lighter be?
Thoughts sometimes a curse to men,
Fill my soul with anything but joy,
And memory flies to my sad past.
Unpleasant thoughts do me annoy.
The past may bring to us a pain,
For acts forsooth we would now change.
But in that past we feel a joy,
And let sad thoughts in memory reign.

Final arrangements have been made for the consolidation of the Swift and Armour interests, which have recently gained control of the other packing concerns throughout the country. Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently, but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

DEATHS.

REID.—Mrs. Elizabeth Jameson Reid died at her home in this city early Wednesday morning, July 2, 1902. The funeral service was held at the residence on Thursday afternoon at 2 o'clock, conducted by Rev. George Darsie, of Frankfort, Ky., assisted by Rev. H. D. Clark, of this city. Rev. W. T. Tibbs, made some remarks and called upon General F. M. Drake, of Iowa, who for 19 years had known the deceased. He responded in a brief speech testifying to her greatness. The funeral was largely attended, there being several friends from other counties. Many floral offerings testified of the love and esteem in which she was held. The body was laid to rest in Macphail beside that of her husband, the distinguished Judge Richard Reid.

Mrs. Reid was born at Fulton, Mo., April 8, 1840. At the age of 16 years she graduated at Christian College, Columbia, Mo., under the management of John Augustus Williams. In the fall of that year (1856) she came to Kentucky with Mr. Williams who took charge of Daughters' College at Harrodsburg. She taught in this institution for one and one half years. She was at the age of 18 years called to the principalship of Woodford College at Versailles, where she conducted with rare ability and success a flourishing boarding school for girls, until the outbreak of the war. In December, 1863, she was married at her Missouri home to Mr. Benjamin F. Rogers, of Bourbon county, Ky. He died seven years later leaving one son, Richard Reid Rogers, the talented and successful young lawyer reared in this city and now of New York.

She was married to Richard Reid, of this county, in 1873, with whom she lived happily until his death in May 15, 1884. Early in life she became a Christian, and in the work and councils of the Christian Church in state and nation attained eminence. Kentucky has had few, if any, greater women. Nature was lavish in the bestowment of graces. Beauty of form and face, of mind and heart belonged to her. A woman of rare intellectual attainments, fluent of expression whether in the social circle or before public assemblies, gracious in manner, modest, hospitable, abundant in charity, she won the confidence and love of those who came in contact with her. Those who have been entertained at her home will not forget her cordial hospitality and reception. For some months it has been known that her affliction was incurable. After consultation with skilled physicians in New York, Baltimore and Lexington she returned to her home in this city early in April awaiting the summons that called her hence. Patiently and with unfaltering trust in Him who doeth all things well she bore the pain, at all times thankful for the richness of God towards her, forgetful of self and mindful of others. She has entered into some of the blessings that await the Christian; the fullness of which will be when the grave gives up those who sleep in Christ. For three weeks her brother, John Jameson, of Missouri and her son, Reid Rogers, of New York were with her. Her sister, Mrs. Linda Adkinson, of Missouri, has been with her for more than three months.

To her kindred we extend our sympathy. Among the friends who attended the funeral were Mrs. Lucy Simms and the Misses Simms, of Paris, Wm. Simms and wife, of Lexington, C. M. Clay, Jr. and wife, Harvey Rogers and wife, of Bourbon and James Hazelrigg, of Frankfort.

Mrs. Mary Jane Derriekson, widow of the late Jesse Derriekson, died last Friday, June 27, of heart trouble at her residence in Winchester. She was a devout Christian, having been a member of the M. E. Church South ever since she was 16 years of age. She was

born 76 years ago in Fayette county, but has been a citizen of Clark county for 10 years. She leaves one daughter, Mrs. Margaret Jones, of Newport, and two sons, Judge and James Derriekson, of Stanton, where her remains were taken for interment Saturday.

Dangerous Life.

Those who watch the family of gymnasts who perform in circus and hall often sigh over the "dangerous life" these people lead. They hold their breath as the wife and mother loses from the trapeze in full swing knowing that an error of judgment, the miscalculation of a hand's length, would precipitate a catastrophe. But the catastrophe does not happen. The family swings and sways in safety. Even the baby does its perilous turn with smiling ease. What is the secret of the safety of these seemingly reckless people? Sound health and steady nerves. The man who watches the act in dread of disaster goes out to supper of wench rabbit, and perhaps has a doctor called before morning. He and such as he are the people who really lead the dangerous life. They jeopardize health every day, and live under a nervous strain that keeps them daily on the verge of collapse. The gymnast lives always in training. Training means not only regular exercise, but proper eating and drinking and regularity of life. The business man remembers that when he was on the football team at school he had to keep in training, eat nourishing food, observe regular hours and avoid all excesses. To-day in the strife of life he eats anything at anytime, turns night into day, and wonders why he feels so weak and "played out" all the time. His is in reality the dangerous life. Where one gymnast suffers injury a thousand men and women succumb to disease brought on by irregularity of living. The business man needs sound health and steady nerves to be successful just as does the gymnast. When he realizes that his health is undermined and his nerves shattered by the strain of business and careless living, he is generally told that the one thing he needs is rest. He must quit business and travel; take an absolute rest for a time. But the one thing the average business man feels least able to do is to take time to rest. There is another way to build up the body and strengthen the nerves. Thousands of men and women broken down in health, nervous, debilitated, have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery.

shows itself in loss of flesh and reduced weight. The normal man who is losing flesh is also losing strength. Mr. Childress' weak condition is marked by his weight—only 95 pounds. Before he began the use of Dr. Pierce's Golden Medical Discovery. After that medicine had cured him he weighed 195 pounds, a gain of one hundred pounds. Naturally he is "now as stout as ever" and "enjoying health."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the proper digestion and assimilation of food, so that the body is perfectly nourished and made strong in the only possible way—by the nutrition derived from food.

"I cannot tell you one-half that I suffered before taking your medicine," writes Mrs. Ada A. Dodrill, of Birch River, W. Va. "I had such an awful choking and other things in the pit of my stomach, it seemed to me that it was hanging by a thread and ready to break loose at any time; also had a big lump under my ribs which moved all the time. I could eat only but very little. No tongue could tell what I suffered with my stomach. I never got a good night's sleep from October until the last of March. My husband and the children would have to sit up and rub me to keep me from dying. I have not had a bad spell since last March. I used twelve bottles of Dr. Pierce's Golden Medical Discovery and Favorite Prescription, and three vials of his 'Pleasant Pellets'."

The reason why Dr. Pierce's Golden Medical Discovery cures so many forms of disease is because so many forms of disease have their origin in disease of the stomach and its allied organs of digestion and nutrition. As loss of nutrition leaves the body more and more run-down and debilitated, the general physical weakness often involves the liver, kidneys, heart and other organs. Thus medical aid is sought and the patient "doctored" for what appears to be the most important symptom of disease. If his heart palpitates, he is treated for heart disease. If his kidneys are diseased or his liver is sluggish, then liver or kidneys are "doctored" for. The result is sometimes a temporary alleviation of the painful conditions, but no cure. The real cause of disease being in the stomach, there can be no cure until the stomach is cured.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures through the stomach diseases of heart, liver, kidneys, lungs, etc., organs seemingly remote from the stomach, but which depend upon the stomach for nutrition, and when the stomach is weak and diseased must share that disease and weakness.

Sick people, especially those suffering from chronic diseases, are invited to consult Dr. Pierce by letter, free, and to obtain, without charge, the opinion of a specialist on their ailments. All correspondence strictly confidential. Address Dr. R. V. PIERCE, Buffalo, N. Y.

Dr. Pierce's office of free consultation by letter is not to be classed with spurious offers of "free medical advice" made by those who are not physicians and who, having neither medical knowledge or experience, are disqualified legally and professionally from medical practice. Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious medicines, will offer the customer a substitute as being "just as good" as the "Discovery." It is better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others and which you believe will cure you.

LEARN TO LIVE a healthy life. Dr. Pierce's Common Sense Medical Adviser teaches how, and how sick people may be made well and strong. This great, modern medical work, containing more than a thousand large pages and over 700 illustrations, is sent FREE on receipt of stamps, to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

Opposed to Sale.

The proposed sale to the United States is reported to be opposed by hundreds of members of the Panama Canal Company in Paris, and legal proceedings to annul the sale, should it be made, have begun.

Mr. John Tippis, Colton, O., says: "Foley's Honey and Tar cured my little girl of a severe cough and inflamed tonsils."

F. C. Duerson, druggist.

The Louisville and Nashville Railroad Company has filed in the Federal Court at Frankfort a petition for an injunction to restrain the State Board of Valuation from certifying or attempting to collect \$32,000,81 of the franchise tax bill of \$51,180,76 assessed against the company.

Great Crop Losses

Reports from the great wheat and corn belt are that the loss to crops from the long wet spell will approximate \$7,000,000,000. The loss to wheat in Kansas is placed at 8,000,000 bushels. The condition in the Northwest is critical. A dry and hot July is regarded as indispensable to the saving of the crops.

What Two Cents Will Do.

It will bring relief to sufferers from Asthma or consumption, even in the worst cases. This is about what one dose of Foley's Honey and Tar costs. Isn't it worth a trial?

F. C. Duerson, druggist.

Col. T. B. Ripy, the distiller of Lawrenceburg died at Battle Creek, Mich., on June 30.

An Isthmian Canal.

The bill passed by Congress and approved by the President provides for a \$175,000,000 canal across the Isthmus of Panama, but Senator Allison predicts that the ultimate cost will not be less than \$200,000,000.

Kentucky Farm Values.

The farms of the State of Kentucky numbered on June 1, 1900, according to a census bulletin issued Wednesday, 234,667, with the total valuation of \$82,004,890. Of this amount \$90,887,460 or 23.5 per cent. represents the value of buildings and \$291,117,430, or 75.5 per cent. the value of land and then improvements other than buildings. On the same date the value of farm implements and machinery was \$15,301,860, and of live stock, \$73,739,100. These values added to that of farms give \$471,045,856, the "total value of farm property."

Incorporation Articles Filed.

Incorporation articles were filed in the office of the Secretary of State Wednesday as follows:

The Rowan County Oil and Gas Company, of Rowan, with \$35,000 capital stock. J. D. and W. T. Candill, Samuel Lipsitz, James Clay and J. W. Riley, all of Morehead, are the incorporators.

The Triplett Valley Oil and Gas Company, of Rowan county, with \$25,000 capital stock. C. A. Hyatt, Hiram, Brady and L. P. Simer, all of Morehead, are the chief stockholders.

Two More in it.

W. H. Morgan, chairman of the State Executive Committee of this congressional district, stated that two other candidates announced for Railroad Commissioner of the Second district, J. Owen Cochran, of Spencer, and T. Hiter Crockett, of Franklin. This makes six aspirants for this office, and it promises to be a warm race. The convention will be held at Frankfort October 1.

Temporary Injunction.

United States Judge Cochran has granted a temporary restraining order in the franchise tax case of the L. & N. Railroad Company against the State Board of Valuation and Assessment, and has notified the attorneys that he will hear the case on October 7 at Covington. Gov. Beckham will designate some attorney to be associated with Attorney General Pratt in the case.

The midsummer payment of interest and dividends in New York on Tuesday amounted to about \$125,000,000 being the largest ever paid at this time of the year. John D. Rockefeller will be the chief beneficiary, his share being about \$2,200,000. W. K. Vanderbilt will come next with about \$1,100,000. The Standard Oil Company has already paid its dividend. This amounted to \$10,000,000, and Mr. Rockefeller's part was \$4,000,000.

No Wonder They are Rich.

The report of Insurance Commissioner Chenault shows that the life insurance companies of Kentucky during the year embraced in the compilation received premiums amounting to \$5,765,086.65 and paid claims aggregating \$2,422,899.96.

Stung to Death.

At Madison, Ind., Mrs. John Moore, aged eighty five years, was set upon by bees from seven or eight hives and was stung to death.

Vacation Days.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds. "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, Swift, Texas. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits.
